**BELLFIRES GAS FIRES**  
**RETAIL PRICE LIST**  
**17th FEBRUARY 2025**

**BUILT-IN GAS FIRES - BALANCED FLUE - SINGLE SIDED FIRES (FRONTAL)**

These appliances are designed to be built in to new studwork chimney breasts, connected to a Bellfires concentric flue system.

**BARBAS GAS FIRE FRONT with Premium Fire 2**

Balanced flue gas fires with thermostatic remote control & Premium Fire 2 burner as standard. Order balanced flue components from the list on page 10.

The complete technology has been concealed in the appliance itself, making a wall access panel superfluous.

**Specify from the list of products below:** Model • Frame Style • Glass Type • Interior Panels. **MUST also specify on order:** Natural Gas or LPG

All models come as standard with: Premium Fire 2 • Logs (black) • Polished Glass • Plain Background

**CHIMNEY BREAST VENTILATION**

For Balanced Flue Gas Fire (Built-In or Insert) being installed into new studwork, the chimney breast **MUST** be ventilated by installing 4 air vents (2 below & 2 above the appliance) to prevent excessive heat build up.

Choose the following parts from the list of Designer Vents below: 4 x Airbox 160, 4 x 160 Inserts (choose a style and colour) and 4 x Brackets for Insert 160

Alternatively, order 4 x STUV-12001007 (Grille Simple White 180 x 70mm) at £36.00 inc VAT each.

**CONVECTION OPTIONS FOR BUILT-IN GAS FIRES - BALANCED FLUE**

A convection kit is **STRONGLY RECOMMENDED**. These appliances will be radiant heat only if a convection kit is not fitted.

Order **ALL** of the parts in the list below to convert the appliance to a convection model.

Note that the parts below must be fitted in addition to the chimney breast ventilation detailed above. This will mean that there will be 3 vents on each side of the studwork chimney breast (4 for ventilation and 2 for convection) in addition to the appliance control box.
